## Trading Terms

### Trading Terms

Forex Optimum provides a choice of two trading accounts.

The account of the Cent type, intended for beginner traders, allows trading in micro lots, which will significantly reduce the risks. To open an account it is enough to deposit 10 dollars. To trade you will be available currency pairs on Forex.

This type of account can also be used to test trading strategies and acquire money management skills (money management) in a real market with real money. The use of trading advisors (robots) is allowed on the cent account.

The standard account type is for more experienced traders. The currency pairs available are FOREX, CFD on stocks, CFD on metals, CFD on indices, CFD on commodities. Account type Standard.STP will provide you with high speed order execution. To start trading on this type of account it is enough to deposit only 300 dollars.
